

THE QUARTERLY JOURNAL OF ENGINEERING GEOLOGY

Vol. 17, No. 4

1984

Price £18.00

Photographic feature: Colour enhanced infra-red photography of landslips	ii
<i>The Engineering Geology of Tidal Rivers</i> (continued from Vol. 17, No. 3)	
P. H. McMILLAN: Deep foundations in the River Hull	291
K. F. SIMM: Engineering solutions to geological problems in the design and construction of Humber Bridge	301
M. E. BARTON & M. H. ROCHE: A geological appraisal of the site of the foundation failure of the giant oil tanks at Fawley, Hampshire.	307
D. A. GREENWOOD: Re-levelling a gas holder at Rhyl.	319
M. T. N. FINCH, F. H. HUGHES & R. A. KILNER: Vertical drains used to facilitate road construction for a Medway riverside industrial area	327
NEIL ARBER: A technical note on the design and construction of the Afon Ganol Valley section of the North Wales Coast Road (A55).	335
R. P. THOMPSON: Geotechnical aspects of Greenodd by-pass.	339
R. T. SLOCOMBE: Tunnelling through warp: an estuarine clay	349
<hr/>	
S. A. AL-JASSAR & A. B. HAWKINS: Chemical soundness test on Carboniferous Limestone samples from the Bristol area	351
B. A. CHAPPELL, J. R. WILLIAMS & A. N. POLLARD: Stress and slabbing in massive rock	357
G. P. DAW: Application of aquifer testing to deep shaft investigations	367
PETER GRAINGER: The classification of mudrocks for engineering purposes.	381
M. S. ROSENBAUM: Quarrying in the Port Stanley beds	389
Discussion by A. H. ALLEN	393
Discussion by G. H. CHILD & D. R. NORBURY	395
Book review	399
