

Geochemistry

EXPLORATION, ENVIRONMENT,
ANALYSIS

The journal is abstracted and/or indexed in *AGI's Bibliography and Index of Geology*, *Chemical Abstracts*, *Current Contents*, *Engineering Index*, *GEOBASE*, *GeoRef*, *Mineralogical Abstracts*, *PASCAL/CNRS*, *GeoArchive*, *Thomson ISI database (SCIE, CC/PC & ES)*

CONTENTS - Volume 13, No. 4

This special issue focuses on the results of research, at the Geological Survey of Canada, in the application of geochemistry in support of mineral exploration and geological mapping through the establishment of sampling protocols, data management and data processing tools.

Editorial

E. C. Grunsky 227

Compositional data analysis of hydrothermal alteration in IOCG systems, Great Bear magmatic zone, Canada: to each alteration type its own geochemical signature

J.-F. Montreuil, L. Corriveau & E. C. Grunsky 229

Statistical variability of the geochemistry and mineralogy of soils in the Maritime Provinces of Canada and part of the Northeast United States

E. C. Grunsky, L. J. Drew, L.G. Woodruff, P. W. B. Friske & D. M. Sutphin 249

Overview of the Canadian component of the North American Soil Geochemical Landscapes Project with recommendations for acquiring soil geochemical data for environmental and human health risk assessments

P. W. B. Friske, A. N. Rencz, K. L. Ford, I. M. Kettles, R. G. Garrett, E. C. Grunsky, R. J. McNeil & R. A. Klassen 267

Editor: **G. E. M. Hall**, Geological Survey of Canada, Ottawa, Canada (e-mail: GHall@NRCan.gc.ca)

Associate Editors: **M. Leybourne** (GNS Science, New Zealand), **J. Carranza** (James Cook University, Australia)

Production Editor: **Jessica Pollitt**, Geological Society Publishing House, Bath, UK (e-mail: jessica.pollitt@geolsoc.org.uk)

Till sampling and geochemical analytical protocols used by the Geological Survey of Canada

M. B. McClenaghan, A. Plouffe, I. McMartin, J. E. Campbell, W. A. Spirito, R. C. Paulen, R. G. Garrett & G. E. M. Hall 285

Processing of glacial sediments for the recovery of indicator minerals: protocols used at the Geological Survey of Canada

A. Plouffe, M. B. McClenaghan, R. C. Paulen, I. McMartin, J. E. Campbell & W. A. Spirito 303

Predicting Archaean volcanogenic massive sulphide deposit potential from litho-geochemistry: application to the Abitibi Greenstone Belt

E. C. Grunsky 317

Geochemical data management – issues and solutions

S. W. Adcock, W. A. Spirito & R. G. Garrett 337

Assessment of local spatial and analytical variability in regional geochemical surveys with a simple sampling scheme

R. G. Garrett 349

The 'rgr' package for the R Open Source statistical computing and graphics environment - a tool to support geochemical data interpretation

R. G. Garrett 355

Geochemistry: Exploration, Environment, Analysis (ISSN 1467-7873) is published in February, May, August and November by the Geological Society Publishing House the Geological Society, London and the Association of Applied Geochemists.

Subscription rates 2013 (volume 13, 4 parts): All correspondence relating to trade subscriptions should be addressed to the Journal Subscriptions Department, Geological Society Publishing House, Unit 7, Brassmill Enterprise Centre, Brassmill Lane, Bath, UK, BA1 3JN (Tel: +44 (0) 1225 445046; Fax: +44 (0) 1225 442836; e-mail: sales@geolsoc.org.uk). The subscription prices for 2012 to institutions and non-fellows are GEEA Online: £215 +VAT (UK), £243/US\$487 (overseas) or GEEA Online+print: £242 +VAT (UK), £274/US\$548 (overseas). The current tax rates (for UK and European Union subscribers) and more information can be found on <http://www.geolsoc.org.uk/LyellCollection>.

Periodical postage paid at Middlesex, N.J. *Postmaster:* send address changes to *Geochemistry: Exploration, Environment, Analysis*. The Geological Society, c/o Pronto Mailers, PO Box 177, Middlesex, NJ 08846.
