

Journal of Micropalaeontology

Volume 16, Part 2, October 1997

CONTENTS

1. **200 Year interruption of Holocene sapropel formation in the Adriatic Sea**
E. J. Rohling, F. J. Jorissen and H. C. de Stigter 97
2. ***Axelheibergella* (Ostracoda, Crustacea), a new genus of marginally septate cladocoid ostracods from the central Arctic Ocean**
W. M. Briggs, Jr 109
3. **The depth distribution of recent marine Ostracoda from the southern Strait of Magellan**
R. C. Whatley, M. Staunton and R. L. Kaesler 121
4. **A new species of *Somalina* (*Somalina hottingeri*) with partially vacuolate lateral walls from the Middle Eocene of Oman**
M. R. White 131
5. **Recent non-marine Ostracoda from Jamaica, West Indies**
J. A. Holmes 137
6. **The genus *Krithe* (Ostracoda) from the Campanian and Maastrichtian (Upper Cretaceous) of the northern US Gulf Coastal Plain**
T. M. Puckett 145
7. ***Oligosphaeridium junctum* sp. nov. A Hauterivian dinoflagellate cyst from the North Sea**
D. Bailey and A. Loy 159
8. **Intra-sample, inter-sample and down-core microvariation in sea-surface temperature estimates obtained from planktonic foraminifera in the NE Atlantic**
B. M. Funnell and J. E. Swallow 163
9. ***Globorotalia bouregregensis*, a new species of planktonic foraminifera from the latest Mipocene-early Pliocene of the Rifian Seaway (northwest Morocco)**
R. Barbieri and G. G. Ori 175
10. **Cambrian Bradoriida and Phosphatocopida (Arthropoda) of the former Soviet Union**
L. M. Melnikova, D. J. Siveter and M. Williams 179

MICROPALAEONTOLOGY NOTEBOOKS

1. **An Ipswichian foraminiferal assemblage from the Gwent Levels (Severn Estuary, UK)**
S. K. Haslett 136
2. **Techniques for the concentration of foraminifera from coastal salt meadow sediments**
G. Lehmann and R. Röttger 144
3. **Note on a new method of using hydrofluoric acid for the study of conodonts in cherts in the Torlesse terrane, New Zealand**
P. B. Ford and D. E. Lee 158

Abstracted and/or indexed in *Current Contents*, *Science Citation Index*, *GeoArchive*, *GeoRef*, *Geobase*, *Geological Abstracts* and *CABS* (*Current Awareness in Biological Sciences*)

Cover Photograph. *Amphitoxotis repanda* Siveter, 1980. Much Wenlock Limestone Fm, Wenlock Series, Silurian, Shropshire. ♀ Left valve.

Price: £38.00
