|  | <i>page</i> |
|--|-------------|
| <b>H. A. Armstrong and M. A. Purnell</b><br>Thermal maturation of the Lower Carboniferous strata of the Northumberland Trough and Tweed Basin from conodont colour alteration index (CAI) data . . . . . | 335         |
| <b>V. Burns and R. B. Rickards</b><br>Silurian graptolite faunas of the Balbriggan Inlier, counties Dublin and Meath, and their evolutionary, stratigraphical and structural significance . . . . .      | 283         |
| <b>A. J. Chapman, R. B. Rickards and R. F. Grayson</b><br>The Carboniferous dendroid graptolites of Britain and Ireland . . . . .  | 295         |
| <b>J. M. Davison, P. R. Ineson and J. G. Mitchell</b><br>Potassium-argon isotopic age determinations from the metasomatic alteration of the Great Limestone, Northern Pennine Orefield . . . . .         | 71          |
| <b>A. C. Dunham (Presidential Address, 9th December, 1989)</b><br>Developments in industrial mineralogy: I. The mineralogy of brickmaking . . . . .  | 95          |
| <b>A. C. Dunham (Presidential Address, 8th December, 1990)</b><br>Developments in industrial mineralogy: II. Archaeological mineralogy . . . . .   | 105         |
| <b>A. C. Dunham and F. C. F. Wilkinson</b><br>A note on the mineralogy of the chilled margin of the Little Whin Sill at Turn Wheel Linn, Weardale, County Durham . . . . .                               | 67          |
| <b>S. E. Evans and M. S. King</b><br>A new specimen of <i>Protorosaurus</i> (Reptilia: Diapsida) from the Marl Slate (late Permian) of Britain . . . . .   | 229         |
| <b>R. A. Fairbairn and J. Ferguson</b><br>The characterisation of calcite-filled fractures from the Northern Pennine Orefield . . . . .  | 117         |
| <b>J. Ferguson</b> see <b>R. A. Fairbairn and J. Ferguson</b> . . . . .  | 117         |
| <b>C. E. Fordham</b> see <b>B. R. Turner, P. L. Younger and C. E. Fordham</b> . . . . .  | 269         |
| <b>J. R. A. Giles</b><br>Late Devensian and early Flandrian environments at Dishforth Bog, North Yorkshire . . . . .   | 1           |
| <b>R. F. Grayson</b> see <b>A. J. Chapman, R. B. Rickards and R. F. Grayson</b> . . . . .  | 295         |
| <b>D. W. Holliday</b><br>Geophysical log signatures in the Eden Shales (Permo-Triassic) of Cumbria and their regional significance . . . . .   | 345         |
| <b>B. Humphreys</b> see <b>G. K. Lott and B. Humphreys</b> . . . . .   | 23          |
| <b>P. R. Ineson</b> see <b>J. M. Davison, P. R. Ineson and J. G. Mitchell</b> . . . . .  | 71          |
| <b>D. W. Jolley</b><br>Spore-dominated assemblages from the lowermost Reading Beds (Palaeocene) of north Essex . . . . .   | 149         |
| <b>M. S. King</b> see <b>S. E. Evans and M. S. King</b> . . . . .  | 229         |
| <b>M. R. Lee</b><br>Formation and diagenesis of slope limestones within the Upper Permian (Zechstein) Raisby Formation, north-east England . . . . .   | 215         |
| <b>A. Livingstone</b> see <b>B. Young, A. Livingstone and N. Thomson</b> . . . . .   | 125         |
| <b>G. K. Lott and B. Humphreys</b><br>The stratigraphy and petrology of Middle Jurassic (Ravenscar Group) sediments in cored boreholes from the North Yorkshire coast . . . . .                          | 23          |

## CONTENTS OF VOLUME 49 (continued)

|--|-------------|
| <b>T. McCann</b>   |             |
| The stratigraphy of the Ordovician rocks around Cardigan, Wales . . . . .  | 57          |
| <b>J. G. Mitchell</b> see <b>J. M. Davison, P. R. Ineson and J. G. Mitchell</b> . . . . .  | 71          |
| <b>S. Mitchell</b>   |             |
| The belemnite faunal changes across the Hauterivian – Barremian boundary in north-east England . . . . .   | 129         |
| <b>J. R. Nudds</b>   |             |
| Catalogue of type, figured and referred fossils in the Geological Department of the Manchester Museum . . . . .  | 81          |
| <b>B. Owens</b> see <b>N. Turner and B. Owens</b> . . . . .  | 189         |
| <b>H. M. Pedley</b>  |             |
| Sedimentology of the late Quaternary barrage tufas in the Wye and Lathkill valleys, north Derbyshire . . . . .   | 197         |
| <b>J. H. Powell</b>  |             |
| <i>Gyrochorte</i> burrows from the Scarborough Formation (Middle Jurassic) of the Cleveland Basin and their sedimentological setting . . . . .           | 41          |
| <b>M. A. Purnell</b> see <b>H. A. Armstrong and M. A. Purnell</b> . . . . .  | 335         |
| <b>A. D. Reynolds</b>  |             |
| Storm, wave and tide-dominated sedimentation in the Dinantian Middle Limestone Group, Northumbrian Basin . . . . .                                       | 135         |
| <b>R. B. Rickards</b> see <b>V. Burns and R. B. Rickards</b> . . . . .   | 283         |
| <b>R. B. Rickards</b> see <b>A. J. Chapman, R. B. Rickards and R. F. Grayson</b> . . . . .   | 295         |
| <b>A. W. A. Rushton</b>  |             |
| Graptolites from the Manx Group . . . . .  | 259         |
| <b>D. B. Smith</b>   |             |
| Alate halite in the late Permian Rotten Marl of Tees-side, north-east England . . . . .  | 293         |
| <b>E. Spinner</b> see <b>N. Turner and E. Spinner</b> . . . . .  | 11          |
| <b>M. A. Taylor</b>  |             |
| Taxonomy and taphonomy of <i>Rhomaleosaurus zetlandicus</i> (Plesiosauria, Reptilia) from the Toarcian (Lower Jurassic) of the Yorkshire coast . . . . . | 49          |
| <b>L. Thistlewood and M. A. Whyte</b>  |             |
| A palaeomagnetic and mineral magnetic study of the Speeton Shell Bed, North Yorkshire . . . . .  | 325         |
| <b>N. Thomson</b> see <b>B. Young, A. Livingstone and N. Thomson</b> . . . . .   | 125         |
| <b>B. R. Turner, P. L. Younger and C. E. Fordham</b>   |             |
| Fell Sandstone lithostratigraphy south-west of Berwick-upon-Tweed: implications for the regional development of the Fell Sandstone . . . . .             | 269         |
| <b>N. Turner</b>   |             |
| <i>Cadiospora crypta</i> sp. nov.; a new species of miospore from the Namurian of the central Pennine Basin, England . . . . .                           | 321         |
| <b>N. Turner and B. Owens</b>  |             |
| Palynological evidence for an early Namurian age of the Cornbrook Sandstone Formation, Clee Hill, Shropshire . . . . .                                   | 189         |
| <b>N. Turner and E. Spinner</b>  |             |
| Palynological evidence for the early Namurian age of the “Millstone Grit” and Upper Limestone Group around Longhoughton Steel, Northumberland . . . . .  | 11          |
| <b>F. Whitham</b>  |             |
| The stratigraphy of the Upper Cretaceous Flamborough Chalk Formation north of the Humber, north-east England . . . . .                                   | 235         |
