

CONTENTS

1 INTRODUCTION	1
MARINE FACIES	
2 <i>Diplocraterion yoyo</i> FACIES GROUP	4
(A) Introduction	4
(B) Juxta- <i>D. yoyo</i> facies	5
(C) <i>D. yoyo</i> facies	6
(D) Additional features of the <i>D. yoyo</i> facies group	9
(E) Comparisons	11
(F) Interpretation	12
3 REYNARD FACIES	14
(A) Introduction and description of facies	14
(B) Type 1 cosets	14
(C) Type 2 cosets	17
(D) Type 3 cosets	17
(E) Isolated sets	19
(F) Carbonate in the Reynard facies	20
(G) Comparisons and interpretation	20
4 <i>Arenicolites curvatus</i> FACIES	21
(A) Introduction and description of facies	21
(B) <i>A. curvatus</i> and other organic traces	23
(C) Description of sections	24
(D) Interpretation	24
5 ROUGH FACIES	26
(A) Introduction and description of sections	26
(B) Comparisons and interpretation	27
6 GULL FACIES	28
7 <i>Lingula</i> FACIES	29
(A) Introduction and description of facies	29
(B) Interpretation	31
8 PENECONTEMPORANEOUS EROSION IN THE MARINE FACIES	32
(A) General	32
(B) The morphology of the erosion-surfaces	33
(C) The sediment above the erosion-surfaces	37
(D) Conclusions	37
9 MECHANICAL DESTRATIFICATION IN THE <i>D. yoyo</i> AND REYNARD FACIES	39
(A) General	39
(B) Pseudonodules and related structures	39
(C) Deformation associated with lateral movement	42
(D) Conclusions	44

NON-MARINE FACIES

10	TIMBER FACIES AND CORMORANT SUBFACIES	45
(A)	Introduction and description of facies	45
(B)	Description of sections	47
(C)	Comparisons and interpretation	48
11	TAG FACIES	49
(A)	Introduction	49
(B)	Descriptions of sections	50
(C)	Comparisons and interpretation	54
12	HOE FACIES	55
(A)	Introduction	55
(B)	Lithology	56
(C)	Palaeontological characters	58
(D)	Sections	59
(E)	Comparisons and interpretation	59
13	THE SEQUENCE OF THE BAGGY BEDS	60
(A)	The junction with the Upcott Bed	60
(B)	The sequence in the Baggy Beds	61
(C)	Cyclicality in the Baggy Beds	65
14	CONCLUSIONS	66
15	APPENDIX	72
16	REFERENCES	73
	PLATES 1 to 12	<i>following p. 80</i>
