

Chief Scientific Editor: **J. Dottridge**, Mott MacDonald, UK

Assistant Scientific Editor (engineering geology):
C. Moses, Edge Hill University, UK

Assistant Scientific Editor (geomaterials):
J. Smethurst, University of Southampton, UK

Assistant Scientific Editor (geotechnical):
S. Millis, Arup, Hong Kong

Assistant Scientific Editor (hydrogeology):
J.W.N. Smith, Shell Global Solutions, The Netherlands

Production Editor: Helen Floyd-Walker
(helen.floyd-walker@geolsoc.org.uk)
Geological Society, Publishing House, Unit 7, Brassmill
Enterprise Centre, Brassmill Lane,
Bath BA1 3JN, UK. Books for review should
also be sent to this address.

The Quarterly Journal of Engineering Geology and Hydrogeology is published by the Geological Society and is an established peer reviewed journal with subscriber numbers of over 4000 worldwide. Papers are invited from, and about, all areas of the world on engineering geology and hydrogeology topics including all relevant aspects of the approach of geology to civil engineering, mining practice and water resources. This includes but is not limited to: applied geophysics, engineering geomorphology, environmental geology, hydrogeology, groundwater quality, ground source heat, contaminated land, waste management, land use planning, geotechnics, rock mechanics, soil mechanics, geomaterials and geological hazards. The journal includes the prestigious Glossop and Ineson lectures, research papers, case studies, review articles, technical notes, photographic features, discussions and book reviews.

The Geological Society of London was founded in 1807, and is the oldest geological society in the world. It received its Royal Charter in 1825 and is now Britain's national society for geology. Both a learned society and a professional body, the Geological Society is the chartering authority able to award Chartered Geologist (CGeol) status to appropriately qualified Fellows with six years relevant postgraduate experience in the practice of geology. The Society also awards the title of Chartered Scientist (CSi). Candidate Fellowship is available to those not yet qualifying for Fellowship (students). Fellows of the Geological Society can choose a subscription to the *Quarterly Journal of Engineering Geology and Hydrogeology* as a benefit of membership. Further information: email: membership@geolsoc.org.uk; <http://www.geolsoc.org.uk>; tel: +44 (0) 207 434 9944. The Society is a Registered Charity, no. 210161.
