

Scottish Journal of Geology

Volume 22, Part 1, Pages 1–144, 1986

CONTENTS

| | | |
|--|---|-----|
| WILLIAMS, P. J. | Petrology and origin of iron-rich silicate-magnetite-quartz rocks from Flowerdale near Gairloch, Wester Ross | 1 |
| BALLANTYNE, C. K. | Protalus rampart development and the limits of former glaciers in the vicinity of Baosbheinn, Wester Ross. . . . | 13 |
| TIPPING, R. | A late-Devensian pollen site in Cowal, south-west Scotland | 27 |
| RUSHTON, A. W. A., STONE, P., SMELLIE, J. L. and TUNNICLIFF, S. P. | An early Arenig age for the Pinbain sequence of the Ballantrae Complex | 41 |
| ROBINS, N. S. and BALL, D. F. | Groundwater resources in the Orkney Islands . . | 55 |
| SIMON, J. B. | Provenance and setting of some Ordovician and Silurian conglomerates in Northern Ireland. | 63 |
| GASTALDO, R. A. | An explanation for lycopod configuration, 'Fossil Grove', Victoria Park, Glasgow. | 77 |
| BATTEN, D. J., TREWIN, N. H. and TUDHOPE, A. W. | The Triassic-Jurassic junction at Golspie, Inner Moray Firth Basin | 85 |
| BANCROFT, A. J. | A new Carboniferous fenestrate bryozoan genus | 99 |
| ROCK, N. M. S., MACDONALD, R., SZUCS, T. and BOWER, J. | The comparative geochemistry of some Highland pelites (Anomalous local limestone-pelite successions within the Moine outcrop; II) | 107 |
| SHORT COMMUNICATIONS | | |
| TANTRIGODA, D. A. | Interpretation of magnetic anomalies over the Blackstones Bank Igneous Centre, West Scottish shelf. | 127 |
| MUNRO, M. | Mylonite zones in the Inch 'Younger Basic' Mass | 132 |
| LETTERS TO THE EDITORS | | |
| RUSSELL, M. J., ALLISON, I., ANDERTON, R. and HALL, A. J. | Metamorphic limestones of the Great Glen area: comments | 137 |
| ROCK, N. M. S., MACDONALD, R. and JEFFREYS, L. A. | Metamorphic limestones of the Great Glen area: reply. | 140 |
