Special Publication reviewing procedures

The Society makes every effort to ensure that the scientific and production quality of its books matches that of its journals. Since 1997, all book proposals have been refereed by specialist reviewers as well as by the Society's Books Editorial Committee. If the referees identify weaknesses in the proposal, these must be addressed before the proposal is accepted.

Once the book is accepted, the Society has a team of Book Editors (listed above) who ensure that the volume editors follow strict guidelines on refereeing and quality control. We insist that individual papers can only be accepted after satisfactory review by two independent referees. The questions on the review forms are similar to those for *Journal of the Geological Society*. The referees' forms and comments must be available to the Society's Book Editors on request.

Although many of the books result from meetings, the editors are expected to commission papers that were not presented at the meeting to ensure that the book provides a balanced coverage of the subject. Being accepted for presentation at the meeting does not guarantee inclusion in the book.

Geological Society Special Publications are included in the ISI Science Citation Index, but they do not have an impact factor, the latter being applicable only to journals.

More information about submitting a proposal and producing a Special Publication can be found on the Society's web site: www.geolsoc.org.uk.

GEOLOGICAL SOCIETY SPECIAL PUBLICATION No. 198

Mine Water Hydrogeology and Geochemistry

EDITED BY

P.L. YOUNGER

University of Newcastle upon Tyne, UK

and

N.S. ROBINS

British Geological Survey, UK

2002
Published by
The Geological Society
London

THE GEOLOGICAL SOCIETY

The Geological Society of London (GSL) was founded in 1807. It is the oldest national geological society in the world and the largest in Europe. It was incorporated under Royal Charter in 1825 and is Registered Charity 210161.

The Society is the UK national learned and professional society for geology with a worldwide Fellowship (FGS) of 9000. The Society has the power to confer Chartered status on suitably qualified Fellows, and about 2000 of the Fellowship carry the title (CGeol). Chartered Geologists may also obtain the equivalent European title, European Geologist (EurGeol). One fifth of the Society's fellowship resides outside the UK. To find out more about the Society, log on to www.geolsoc.org.uk.

The Geological Society Publishing House (Bath, UK) produces the Society's international journals and books, and acts as European distributor for selected publications of the American Association of Petroleum Geologists (AAPG), the American Geological Institute (AGI), the Indonesian Petroleum Association (IPA), the Geological Society of America (GSA), the Society for Sedimentary Geology (SEPM) and the Geologists' Association (GA). Joint marketing agreements ensure that GSL Fellows may purchase these societies' publications at a discount. The Society's online bookshop (accessible from www.geolsoc.org.uk) offers secure book purchasing with your credit or debit card.

To find out about joining the Society and benefiting from substantial discounts on publications of GSL and other societies worldwide, consult www.geolsoc.org.uk, or contact the Fellowship Department at: The Geological Society, Burlington House, Piccadilly, London W1J 0BG: Tel. +44 (0)20 7434 9944; Fax +44 (0)20 7439 8975; Email: enquiries@geolsoc.org.uk.

For information about the Society's meetings, consult *Events* on www.geolsoc.org.uk. To find out more about the Society's Corporate Affiliates Scheme, write to enquiries@geolsoc.org.uk.

Contents

YOUNGER, P.L. & ROBINS, N.S. Challenges in the characterization and prediction of the hydrogeology and geochemistry of mined ground	1
BOOTH, C.J. The effects of longwall coal mining on overlying aquifers	17
WOLKERSDORFER, C. Mine water tracing	47
WHITWORTH, K.R. The monitoring and modelling of mine water recovery in UK coalfields	61
DUMPLETON, S. Effects of longwall mining in the Selby Coalfield on the piezometry and aquifer properties of the overlying Sherwood Sandstone	75
ADAMS, R. & YOUNGER, P.L. A physically based model of rebound in South Crofty tin mine, Cornwall	89
ROBINS, N.S., DUMPLETON, S. & WALKER, J. Coalfield closure and environmental consequence – the case in south Nottinghamshire	99
MCKELVEY, P., BEALE, G., TAYLOR, A., MANSELL, S., MIRA, B., VALDIVIA, C. & HITCHCOCK, W. Depressurization of the north wall at the Escondida Copper Mine, Chile	107
KUMA, J.S., YOUNGER, P.L. & BOWELL, R.J. Hydrogeological framework for assessing the possible environmental impacts of large-scale gold mines	121
BANWART, S.A., EVANS, K.A. & CROXFORD, S., Predicting mineral weathering rates at field scale for mine water risk assessment	137
BOWELL, R.J. The hydrogeochemical dynamics of mine pit takes	159
SAALTINK, M.W., DOMENECH, C., AYORA, C. & CARRERA, J. Modelling the oxidation of sulphides in an unsaturated soil	187
GANDY, C.J. & EVANS, K.A. Laboratory and numerical modelling studies of iron release from a spoil heap in County Durham	205
BANKS, D., HOLDEN, W., AGUILAR, E., MENDEZ, C., KOLLER, D., ANDIA, Z., RODRIGUEZ, J., SÆTHER, O.M., TORRICO, A., VENEROS, R. & FLORES, J. Contaminant source characterization of the San José Mine, Oruro, Bolivia	215
NUTTALL, C.A. & YOUNGER, P.L. Secondary minerals in the abandoned mines of Nenthead, Cumbria as sinks for pollutant metals	241
YOUNGER, P.L., The importance of pyritic roof strata in aquatic pollutant release from abandoned mines in a major, oolitic, berthierine–chamosite–siderite iron ore field, Cleveland, UK	251
LEBLANC, M., CASIOT, C., ELBAZ-POULICHET, F. & PERSONNÉ, C. Arsenic removal by oxidizing bacteria in a heavily arsenic-contaminated acid mine drainage system (Carnoulès, France)	267
BROWN, M.M.E., JONES, A.L., LEIGHFIELD, K.G. & COX, S.J. Fingerprinting mine water in the eastern sector of the South Wales Coalfield	275
BANKS, D., PARNACHEV, V.P., FRENGSTAD, B., HOLDEN, W., VEDERNIKOV, A.A. & KANNACHUK, O.V. Alkaline mine drainage from metal sulphide and coal mines: examples from Svalbard and Siberia	287
HATTINGH, R.P., PULLES, W., KRANTZ, R., PRETORIUS, C. & SWART, S. Assessment, prediction and management of long-term post-closure water quality: a case study–Hlobane Colliery, South Africa	297
NUTTALL, C.A., ADAMS, R. & YOUNGER, P.L. Integrated hydraulic–hydrogeochemical assessment of flooded deep mine voids by test pumping at the Deerplay (Lancashire) and Frances (Fife) Collieries	315

LOREDO, J., ORDÓÑEZ, A. & PENDÁS, F. Hydrogeological and geochemical interactions of adjoining mercury and coal mine spoil heaps in the Morgao catchment (Mieres, NW Spain)	327
NEUMANN, I. & SAMI, K. Structural influence on plume migration from a tailings dam in the West Rand, Republic of South Africa	337
JOHNSON, K.L. & YOUNGER, P.L., Hydrogeological and geochemical consequences of the abandonment of Frazer's Grove carbonate-hosted Pb/Zn fluorspar mine, north Pennines, UK	347
HOLTON, D., KELLY, M. & BAKER, A. Paradise lost? Assessment of liabilities at a Uranium mine in the Slovak Republic: Novoveska Huta	365
REES, S.B., BOWELL, R.J. & WISEMAN, I. Influence of mine hydrogeology on mine water discharge chemistry	379

It is recommended that reference to all or part of this book should be made in one of the following ways:

YOUNGER, P.L. & ROBINS, N.S. (eds) 2002. *Mine Water Hydrogeology and Geochemistry*. Geological Society, London, Special Publications, **198**.

ADAMS, R. & YOUNGER, P.L. 2002. A physically based model of rebound in South Crofty tin mine, Cornwall *In*: YOUNGER, P.L. & ROBINS, N.S. (eds). *Mine Water Hydrogeology and Geochemistry*. Geological Society, London, Special Publications, **198**, 89–97.

Referees

The Editors are grateful to the following people for their assistance with the reviewing of papers submitted to this Special Publication

Dr R Adams	University of Newcastle, UK
Prof A C Aplin	University of Newcastle, UK
Dr C Ayora	CSIC, Barcelona, Spain
Mr D Banks	Holymoore Consulting, Chesterfield, UK
Dr S A Banwart	University of Sheffield, UK
Dr L C Batty	University of Newcastle, UK
Dr J P Bloomfield	British Geological Survey, Wallingford, UK
Prof C Booth	Northern Illinois University, DeKalb, Illinois, USA
Dr R J Bowell	SRK Consulting, Cardiff, UK
Mr M M E Brown	Camborne School of Mines, University of Exeter, Redruth, UK
Dr S P Burke	University of Sheffield, UK
Dr S Dumpleton	British Geological Survey, Keyworth, UK
Dr K Evans	University of Sheffield, UK
Prof G Fleming	University of Strathclyde, UK
Dr R Fuge	University of Wales, Aberystwyth, UK
Dr P J Hayes	Water Management Consultants Ltd, Shrewsbury, UK
Dr J A Heathcote	Entec UK Limited, Shrewsbury, UK
Dr A W Herbert	Environmental Simulations International, Shrewsbury, UK
Mr D B Hughes	University of Newcastle, UK
Dr K L Johnson	University of Newcastle, UK
Dr D G Kinniburgh	British Geological Survey, Wallingford, UK
Dr B A Klinck	British Geological Survey, Keyworth, UK
Prof L Lövgren	University of Umeå, Sweden
Prof D A C Manning	University of Newcastle, UK
Prof J Mather	Royal Holloway, University of London, Egham, UK
Mr P McKelvey	Water Management Consultants Ltd, Shrewsbury, UK
Dr A E Milodowski	British Geological Survey, Keyworth, UK
Mr B D R Misstear	Trinity College, Dublin, Ireland
Ms K L Morton	K L M Consulting Services, Johannesburg, South Africa
Dr C A Nuttall	University of Newcastle, UK
Dr D W Peach	British Geological Survey, Wallingford, UK
Prof M Sauter	Universität Jena, Germany
Dr J M Sherwood	Environment Agency, Exeter, UK
Dr P L Smedley	British Geological Survey, Wallingford, UK
Mr R G Smith	Environment Agency, Nottingham, UK
Mrs J A Walker	Scott Wilson Kirkpatrick, Chesterfield, UK
Mr D C Watkins	Camborne School of Mines, University of Exeter, Redruth, UK
Dr N R Walton	University of Portsmouth, UK
Dr R S Ward	Environment Agency, Solihull, UK
Dr C Wolkersdorfer	Technische Universität Bergakademie Freiberg, Germany
