 Walvis hot-spot 65
 Walvis Ridge 64–65, 71, 95, 132–133
 common origin with Rio Grande Rise 64–65, 71,
 129–143, 523
 see also Rio Grande Rise-Walvis Ridge
 Walvis-Namibe Basin 95
 well 1-ESS-130-ES cracked source 258
 well 2815/15-01 258
 geochemistry 259, 261–264
 origin of oil 261, 263–264
 West Africa, deep-water hydrocarbon exploration 235–236
 West Africa Craton 13
 West Africa Plate *see* South America-West Africa Plate reconstruction
 West Africa Subplate 77, 80, 82
 West Africa-NE Brazil margins
 sedimentation 109–126
 rate estimation 111–116
 West African Coast Magnetic Anomaly (WACMA) 267,
 271, 272, 274
 West African transform margin
 faults 236, 237
 Late Cretaceous deep-water exploration 235–236, 237
 tectonic evolution 237–239
 continent-ocean
 transition 238–239
 deformation and rifting 238
 passive margin subsidence 239
 tectonics and stratigraphy 236–237
 West Congo orogen 13
 West Congolian Belt 228
 West Iberia-Newfoundland conjugate margin
 152, 404, 405
 comparison with Campos-Kwanza margin 506
 continent-ocean transition
 effect of mantle properties 420–425
 mantle exhumation 418–420
 crustal architecture 504–505, 521
 evolution 431, 433, 436
 exhumed mantle, transitional lithosphere
 430–436
 exhumed mantle peridotite 431
 hyperextension, sequential faulting model
 411–418
 low-angle detachments 405, 406
 reconstruction 430
 seismic imaging 406, 411, 412, 413
 sequential faulting model, sedimentation 418
 tectonic development 499
