Preface	vii
PŘIKRYL, R., TÖRÖK, Á., THEODORIDOU, M., GOMEZ-HERAS, M. & MISKOVSKY, K. Geomaterials in construction and their sustainability: understanding their role in modern society	1
FRANGIPANE, A. From spolia to recycling: the reuse of traditional construction materials in built heritage and its role in sustainability today: a review	23
TŮMOVÁ, H., AUGENTI, A., KUCHAROVÁ, A., CIRELLI, E. & PŘIKRYL, R. Late Antique marble trade: new insights obtained from stone artefacts from the San Severo complex (Ravenna, Italy)	35
HERBST, T. & MENG, B. Concept for a holistic sustainability assessment of the end-of-life phase of masonry	47
DANIELSEN, S. W. & KUZNETSOVA, E. Resource management and a Best Available Concept for aggregate sustainability	59
PFLEIDERER, S., HEINRICH, M., RABEDER, J., REITNER, H., UNTERSWEIG, T. & WIMMER-FREY, I. Application of a new method for rapid quality assessment of renewable aggregate resources in alpine regions	71
DINO, G. A., LASAGNA, M., CLEMENTE, P. & DE LUCA, D. A. Laboratory characterization and pilot site tests of residual sludge from dimension stones for civil and environmental applications	79
COSTA, C. S., ROCHA, F. & VELOSA, A. L. Sustainability in earthen heritage conservation	91
GARCÍA-RODRIGUEZ, M., GARCÍA-RODRIGUEZ, M. & GOMEZ-HERAS, M. Sierra de Guadarrama (Madrid, Spain): bridging the gap between geology and architecture	101
TURMEL, A., FRONTEAU, G., CHALUMEAU, L., DEROIN, J.-P., EYSSAUTIER-CHUINE, S., THOMACHOT-SCHNEIDER, C., DE KOCK, T., CNUDE, V. & BARBIN, V. GIS-based variability of building materials towards the Île-de-France cuesta (Paris Basin, France): inventory, distribution, uses and relationship with the environment	113
ERGENÇ, D., CANER SALTİK, E. N. & TOPAL, T. Antique stone quarries in Turkey: a case study on tuffs in the Temple of Apollon Smintheus	133
MODESTOU, S., THEODORIDOU, M., FOURNARI, R. & IOANNOU, I. Physico-mechanical properties and durability performance of natural building and decorative carbonate stones from Cyprus	145
DUBELAAR, C. W. & NIJLAND, T. G. Early Cretaceous Obernkirchen and Bentheim Sandstones from Germany used as dimension stone in the Netherlands: geology, physical properties, architectural use and comparative weathering	163
CALIA, A., LETTIERI, M., MECCHI, A. & QUARTA, G. The role of the petrophysical characteristics on the durability and conservation of some porous calcarenites from Southern Italy	183
VÁZQUEZ, P., MENÉNDEZ, B., DENECKER, M. F. C. & THOMACHOT-SCHNEIDER, C. Comparison between petrophysical properties, durability and use of two limestones of the Paris region	203
JOHANSSON, E., MIŠKOVSKÝ, K., BERGKNUT, M. & ŠACHLOVÁ, Š. Petrographic characteristics of intrusive rocks as an evaluation tool of their technical properties	217

HAMED, A., ALY, N., GOMEZ-HERAS, M. & ALVAREZ DE BUERGO, M. New experimental method to study the combined effect of temperature and salt weathering	229
BARICZA, Á., BAJNÓCZI, B., TÓTH, M., KÁLDOS, R. & SZABÓ, CS. Characterization of particulate matter in attic and settled dusts collected from two buildings in Budapest, Hungary	239
ARIZZI, A., MOLINA, E. & CULTRONE, G. Repair rendering mortars for the restoration of the Vargas Palace in Granada (Spain): a comparative study of the mortar behaviour in the laboratory and on site	253
ARIZZI, A. & CULTRONE, G. Inadequacy of different methods of assessing the correct dosages during the preparation of air-hardening lime mortars	275
KAPRIDAKI, C. & MARAVELAKI, N.-P. TiO ₂ –SiO ₂ –PDMS nanocomposites with self-cleaning properties for stone protection and consolidation	285
STEFANIDOU, M., MATZIARIS, K. & KARAGIANNIS, G. Resistance to weathering and retreatability of composite protective nanostructured coatings applied to Pendelikon marbles	293
Index	303
